Suggested Reading

Shaywitz, S. (2005). *Overcoming dyslexia: A new and complete science-based program for reading problems at any level*. New York: Vintage. This neuroscience researcher discusses one type of dyslexia, phonological, as seen through her research. The strategies are not individual or classroom-based.

Zadina, J. N. (2014). *Six weeks to a brain upgrade: A student's quick-start guide for using brain research to boost learning*. Publisher: J. N. Zadina. This is an inexpensive supplemental textbook for students 9-college to teach them about how their brain learns and research-based learning strategies.
